VALUE

\$40 million

CONTRACT DURATION

54 weeks

COMPLETION DATE

September 2020

LOCATION

Bankstown, NSW

CONTRACT TYPE

Design & Construct
Early Contract Involvement

START DATE

June 2019

In order to minimise the impact on the day to day functions of the airport, the project was designed in two stages, Stage 1 being the infrastructure works and the taxi way re-alignments and, Stage 2 being the new office, hanger, aprons, carpark and landscaping works.

Taylor partnered with Sydney Metro Airports, Altis Property Partners and NSW Police Force to deliver the design and construction of new facilities for NSW Police Aviation Support Branch (PolAir). The new facilities are sited at Bankstown Airport, Sydney, NSW and are owned and managed by Bankstown Airport Limited with the NSW Police as a long-term tenant.

PolAir includes approximately 3,000m² of office space across two levels, 7,500m² of hangar space and adjoining aprons, taxiways, carparks and landscaped areas. The total development area exceeds 25,000m².

During construction it was important to have minimal impact on the ongoing operation of the airport. In order to minimise the impact on the day to day functions of the airport, the project was designed in two stages, Stage 1 being the infrastructure works and the taxi way re-alignments and, Stage 2 being the new office, hanger, aprons, carpark and landscaping works.

Taylor was awarded the ECI contract upfront and assist the Client by producing the documentation to 50% prior to commencement on site.

PolAir is the first of the Master Development Plan for the Bankstown Airport with other Major developments to be completed over the next 5 to 10 years.
